Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

In particular, these claims depend from apparatus claim 5, however, neither of these dependent claims add any further apparatus limitations, rather they describe a functional desired result with no additional element(s) recited to yield such.

Allowable Subject Matter

3. Claims 1-15 are allowed.

None of the cited prior art teaches or discloses in this environment the required first and second normalization limitations as defined in any of the independent claims.

4. This application is in condition for allowance except for the following formal matters:

See the above objection to dependent claims 16 and 17...
